MATERIAL SAFETY DATA SHEET

Prepared according to Commission Regulation (EU) No 453/2010
Issue Date: 04/04/2024.
Revision No.: 02
Product Name: *L3VEL3 MUD SCRUB MASK*

SECTION 1: PRODUCT & COMPANY IDENTIFICATION

Product name: L3VEL3 MUD SCRUB MASK

Relevant identified uses of the product: FACE CLEANSING.

Uses advised against: No use specifically advised against.

Suppliers Details:

L3VEL3 LLC
2250 Western Ave
Park Forest, IL 60455
USA
+1 855 899 8499
info@lv3.com

Emergency Telephone Numbers: +1 855 899 8499

SECTION 2: HAZARDS IDENTIFICATION

Classification of the substance or mixture:
The product is not classified as hazardous according to Regulation 1272/2008(CLP).

Label Elements
The product does not need to be labeled according to Regulation (EC) No 1272/2008(CLP).

Other hazards
Result of PBT and vPvB assessment: No data available.

Additional information
Please look over section 11 for toxicological information

SECTION 3: COMPOSITION / INFORMATION INGREDIENTS

Substances

Substance(s) that is classified as hazardous under the CLP Regulation (EC) No 1272/2008

INCI Name	CAS Number	Concentration (%)	EINECS/ ELICS Numbers	Classification
Magnesium nitrate	10377-60-3	0.002	233-826-7	Eye Damage/Irritation: Category 2 Skin Corrosion/Irritation: Category 2 Specific target organ toxicity - Single Exposure Category 3
Methylchloroisothiazolinone	26172-55-4	0.000375	247-500-7	Acute toxicity - Category 3, Oral Acute toxicity - Category 3, Dermal Skin corrosion, Sub-category 1B Serious eye damage, Category 1 Skin sensitization, Sub-category 1A Acute toxicity - Category 2, Inhalation Hazardous to the aquatic environment, short-term (Acute) - Category Acute 1 Hazardous to the aquatic environment, long-term (Chronic) - Category Chronic 1
Methylisothiazolinone	2682-20-4	0.001125	220-239-6	Acute oral toxicity Category 3 Acute dermal toxicity Category 3 Acute Inhalation Toxicity - Dusts and Mists Category 2 Skin Corrosion/Irritation Category 1 B Serious Eye Damage/Eye Irritation Category 1 Skin Sensitization Category 1

Additional information

See Section 16 for the full text of the H statements declared above.

SECTION 4: FIRST AID MEASURES

Description of first aid measures

Eye contact
Check for and remove any contact lenses. Rinse out with water with the eye lid held wide open. Get medical attention if irritation persists.

Skin contact
Wash off with soap and water. Get medical attention if irritation persists.

Ingestion
Rinse out mouth and make victim drink plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting unless directed to do so by medical personnel; call for medical help.

Inhalation
Remove from exposure. Keep warm and at rest and provide fresh air. Give oxygen or artificial respiration if needed. Seek medical advice if needed.

Most important symptoms and effects, both acute and delayed.

No further relevant information available.

SECTION 5: FIRE FIGHTING MEASURES

Extinguishing media

Suitable: Water spray, alcohol resistant foam, CO_2, dry chemical powder.
Unsuitable: Water jet.

Special hazards arising from the substance or mixture:

Nature of decomposition products not known.

Advice for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

Further information: No data available

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Keep unnecessary and unprotected personnel from entering. Put on appropriate personal protective equipment. Spillages can cause slippery situations. If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials.

Environmental protection measures
Do not empty into drains and sewers. Keep from entering to water and ground water systems. Contain spillage where possible and safe to do so. Inform appropriate authority in case of accidental contamination of water courses or drains.

Methods and material for containment and cleaning up.
Absorb the leakage with an inert absorbent and put in an appropriate waste disposal container for proper disposal.

Reference to other sections
Review safety handling information in Section 7, personal protection measures in Section 8 and disposal measures in Section 13.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling
Protective measures: Use normal security precautions. No special precautions required. Avoid spillages as these will cause slippery under foot conditions.

Hygiene measures: Do not eat, drink or smoke when using this product. Wash hands. thoroughly after handling.
Conditions for safe storage, including any incompatibilities:
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from in compatible materials and food and drink. Store inside in a clean environment to avoid microbial contamination. Do not store with oxidizing agents.

Specific end uses: No further relevant information available.

SECTION 8: EXPOSURE CONTROL / PERSONAL PROTECTION

Control parameters:

Occupational exposure limits: Contains no ingredients with occupational exposure limit values.
Derived effect levels: No data available for product and its ingredients.
Predicted effect concentrations: No data available for product and its ingredients.

Exposure controls

Provide adequate ventilation to maintain exposure levels below applicable limits.

Personal protective equipment

Eye/Face Protection

No eye/face protection is required under normal conditions. Avoid contact with eyes.

Hand Protection

No hand protection is required under normal conditions. Wash hands thoroughly after handling.

Respiratory Protection

No respiratory protection is required under normal conditions.

Skin and body protection

No body protection is required under normal conditions.

Hygiene measures

Wash hands thoroughly after handling this product, before eating, smoking and using the lavatory and at the end of the working period.

Environmental exposure controls

Attempt to stop leakage without personal risk. should not be released into the environment. Prevent product from entering drains.

SECTION 9: PHYSICAL AND CHEMICAL PROPERITIES

General information

Physical state	Creamy with granules
Specific physical form	Creamy with granules
Color	White
Odor	Characteristic
pH	4.5 ~ 5.5
Melting point (°C)	No data available
Boiling point (°C)	No data available
Flash point (°C)	No data available
Flammability (solid, gas)	No data available
Flammable Limits (LEL)	No data available
Flammable Limits (UEL)	No data available
Vapor pressure	No data available
Relative density	No data available
Evaporation rate	No data available
Density	1.0 ~ 1.3 g/ml
Vapor density	No data available
Water solubility	No data available
Log Pow	No data available
Viscosity (@20°C)	9000 ~ 14000
Explosive properties	No data available
Oxidizing properties	No data available

Other information: No additional information

SECTION 10: STABILITY AND REACTIVITY

Reactivity
No data available related to reactivity.

Chemical stability
The product is stable under recommended storage and handling conditions.

Possibility of hazardous reactions
Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid:
Avoid product contact with incompatible materials.

Incompatible materials
Strong oxidizing agents.

Hazardous decomposition products
Hazardous decomposition products formed under fire conditions.

SECTION 11: TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity: No data available.

Sensitization: No data available.

Genetic Toxicity: No data available.

Repeated Dose Toxicity: No data available

Carcinogenicity: No experimental or epidemiological evidence exists to justify classification of the product or its ingredients for carcinogenic activity.

Reproductive toxicity: No data available.

Specific target organ toxicity (single exposure): No data available

Specific target organ toxicity (repeated exposure): No data available

SECTION 12: ECOLOGICAL INFORMATION

Toxicity: No data available.

Persistence and degradability: No data available

Bio accumulative potential: No data available

Mobility in soil: No data available

Results of PBT and vPvB assessment: No data available

Other adverse effects: No known significant effects or critical hazards.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste treatment methods:
Can be deposited in landfills, sent to an incineration or other appropriate means of disposal provided they meet the requirements of local laws.

European waste catalogue and list of hazardous waste
Dispose of in accordance with local regulations. According to the European Waste Catalogue, waste codes are not product specific, but application specific. Waste codes should be assigned by the user.

Methods of disposal
The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Contaminated packaging
This material and its container must be disposed of in a safe way.

SECTION 14: TRANSPORT INFORMATION

Transport information:

Transport by land according to ADR/RID	Inland navigation (ADN)	Marine transport in accordance with IMDG	Air transport in accordance with IATA
Not classified as Dangerous Goods	Not classified as Dangerous Goods	Not classified as Dangerous Goods	Not classified as Dangerous Goods

Environmental hazards: Not environmentally hazardous.

Special precautions for user: No data available

Transport in bulk according to Annex II of MARPOL 73/78andthe IBC Code: No data available.

SECTION 15: REGULATORY INFORMATION

Safety, health and environmental regulations specific for the substance or mixture

- Regulation (EC)No1907/2006, (REACH).
- Commission Regulation (EU)No 453/2010amending Regulation (EC) No 1907/2006.
- Council Directive 67/548/EEC, (DSD).
- Regulation (EC)No1272/2008(CLP).
- Commission Directive 2006/15/EC.
- Directive 2000/39/EC.
- Council Directive 91/689/EEC.
- Recommendations on the TRANSPORT OF DANGEROUS GOODS, Sixteenth revised edition.
- ADR-European Agreement Concerning the International Carriage of Dangerous Goods by Road.

SECTION 16: OTHER INFORMATION

Indication of changes to the previous revision

Date Prepared: 04/04/2024.

Revision No: 02

Revision Date: ---

Abbreviations and acronyms:

ADR: European Agreement Concerning the Int. Carriage of Dangerous Goods by Road
AND: International Carriage of Dangerous Goods by Inland Waterways (ADN)
CLP: Regulation of Classification, Labelling and Packaging of Chemicals
DPD: Dangerous Preparations Directive
DSD: Dangerous Substances Directive
GHS: Globally Harmonized System of Classification and Labeling of Chemicals
IATA: International Air Transport Association
IMDG: International Maritime Code for Dangerous Goods
PBT: Persistent Bio accumulative Toxic.
RID: International Rule for Transport of Dangerous Substances by Railway
TLV: Threshold Limit Values
TWA: Time Weighted Average
vPvB: Very Persistent, Very Bio accumulative
WEL: Workplace Exposure Limits

Further Information

The information contained within this Safety Data Sheet is believed to be accurate and have been compiled from sources believed to be reliable. It is offered for consideration, investigation and verification. It is the user´s responsibility to follow the guidelines as outlined within this MSDS. The user assumes all risk of use, storage and handling in compliance with applicable laws and regulations.
